

INFORMATION SHEET

COMPACTION EQUIPMENT

Waste Services offers a wide range of compaction and baling equipment suitable for commercial business and construction alike. Compaction Equipment offers a cost-effective, space-saving solution for waste and recycling streams.

Benefits

- Guaranteed reduction in haulage costs
- Waste volume reduction
- Reduced vehicle movements
- Reduced labour costs
- Improved hygiene
- Equipment can be leased, purchased or rented

Static Compactor

Height	Width	Length
1415mm	1845mm	3200mm

Static Compaction Equipment requires a waste collection receptacle to be attached. This container size is dependant on waste volumes and available floor space.

Mobile Compaction Unit

10.64 M³

Height	Width	Length
2715mm	1750mm	4750mm
